FAQ

About

NoteShare is a note sharing app, on which you can find various notes uploaded by your peers and share your own notes.

Uploaded notes can be edited or removed, others' notes can be sorted and filtered by module, lecture name, rating, creator name, and date uploaded. You can also flag inappropriate notes and get them removed from the system.

There is a leveling system, which is fueled by how many notes you upload to the system. There are **10 badges** to collect completing various tasks within the app. The best, most active users appear on the **Hall of Fame** ranked by their level.

FAQ

How to level up?

You level up by uploading notes. Depending on the size of the note (calculated by the amount of words) you get a certain amount of points. The points are then added to your progress bar and when you collect enough - you level up.

How are progress points calculated?

How to report inappropriate content?

Badge completion is not showing, what to do?
